Hi Frank!

Sending this way because I forgot my password for the RAV system! Please let me know if you can look into this.

Thank you,

Danielle

HQ LEAD NUMBER: FY18-174423-3714-CV

SUBJECT: Referred to Region - Maryland

FROM:

TO:

Alleged Violator's Name: Metikki Coal

Alleged Violator's Address: Table Rock Rd

Alleged Violator's City: Oakland

Alleged Violator's State: Maryland

Alleged Violator's Zip: 21550

Tip or Complaint: Off of Red Oak Rd. Mettiki Coal has there reclamation area where they pile coal waste and other by products. Next to this area are wind mills. The wind mill operator has had issues the last few years with corrosion and damage caused by air laden with acidic and other corrosive elements. The air quality was monitored by the windmill operator and found to be quite nasty. There are homes in the immediate area. We the residents of the area experience foul air and different smells off and on. If this air contains contaminants that destroy windmill equipment. Common sense says that it is not healthy for residents in the nearby areas. In closing we the residents were here long before Mettiki and our Health and Well Being should come First.

Violation Still Occurring? Yes

State DEP/DEQ/DEM Notified? No
